

**AMENDMENTS TO THE CLAIMS**

The following listing of claims replaces all prior listings of claims presented in the application.

Claim 1 (Canceled)

Claim 2 (Canceled)

Claim 3 (Withdrawn): An individual wrapping container for wrapping individually an interlabial pad to be held between labia, comprising:

a main body containing said interlabial pad and

a cover that covers a part of said main body, the cover forming an unwrapped portion at an end edge portion to be unwrapped to open the individually wrapping container;

wherein a surface of said main body has an instruction to show where said individual wrapping container is held when opening the individual wrapping container is unwrapped.

Claim 4 (Withdrawn): An individual wrapping container according to claim 3, characterized in that said instruction is made visual or touchable.

Claim 5 (Currently amended): A wrapping body according to claim 10, An individual wrapping container for wrapping individually an interlabial pad to be held between labia, comprising:

a main body for containing said interlabial pad and

a cover which overlaps on a part of the main body, the cover having an edge portion forming an unwrapping portion to unwrap said individual wrapping container;

wherein said individual wrapping container has the cover which overlaps on a part of the main body,

wherein the main body has a fine projection on an internal surface of said main body, and said end edge of said cover is curved ~~or beveled~~ to a bottom of the individual wrapping container.

Claim 6 (Currently amended): A wrapping body according to claim 10, An individual wrapping container according to claim 1, wherein said individual wrapping container comprises a container, and

wherein said individual wrapping container has said cover comprises having an overlapping portion that is formed by overlapping both ends of a wrapping sheet and a vicinity of said both ends, and

wherein said unwrapping portion comprises one end of said wrapping sheet, and

wherein said individual wrapping container is unwrapped by unfolding said overlapping portion from said unwrapping portion.

Claim 7 (Withdrawn): An individual wrapping container according to claim 6 comprising:  
an unwrapping portion for sealing the interlabial pad, and  
a bottom line on the opposite side;

wherein the dimension of the main body becomes smaller as it proceeds from said bottom line to said unwrapping portion.

Claim 8 (Currently amended): A wrapping body according to claim 10, An individual wrapping container according to claim 1,

wherein said individual wrapping container is provided with a re-sealable sealing means on a portion where said cover and said main body are brought into contact.

Claim 9 (Currently amended): A wrapping body An individual wrapping container according to claim 8,

wherein characterized in that said sealing means has a dry edge and that said dry edge projects from the bottom side of said individual wrapping container.

Claim 10 (Currently amended): A wrapping body, comprising:

an interlabial pad to be held between labia and an individual wrapping container for individually wrapping said interlabial pad,

wherein the interlabial pad wrapped in said individual wrapping container constitutes the wrapping body, and

wherein the interlabial pad in said individual wrapping container is arranged on a position where at least one part of said interlabial pad is held at the same time when said individual wrapping container is held,

wherein the interlabial pad is twofolded,

wherein the individual wrapping container comprises:

a main body for containing said interlabial pad, and

a cover that covers a part of said main body, the cover forming an unwrapping

portion at an end edge portion to be unwrapped to open the individual wrapping container;

~~wherein said cover is shaped to have a cut portion at a place where said individual wrapping member is held when the individual wrapping container is opened, and~~

wherein the individual wrapping container has a predetermined region where a finger of a wearer is applied, and

said end edge of said cover is curved or beveled to a bottom of the individual wrapping container.

Claim 11 (Canceled).

Claim 12 (Currently amended): A wrapping body according to claim 10 14,

wherein said interlabial pad has a length of 80 mm to 150 mm in the longitudinal direction and a length of 20 mm to 40 mm in the lateral direction.

wherein said interlabial pad and said individual wrapping container have a longitudinal direction and a lateral direction, and substantially form an elongated shape in the longitudinal direction,

wherein a dimension in the longitudinal direction of said individual wrapping container is in a range of 105 [[--]] to 130% of a dimension in the longitudinal direction of said interlabial pad.

**Claim 13 (Withdrawn-Currently amended):** A wrapping body according to claim 10,

wherein said interlabial pad has a length of 80 mm to 150 mm in the longitudinal direction  
length of 20 mm to 40 mm in the lateral direction,

wherein said interlabial pad and said individual wrapping container have a longitudinal

direction and a lateral direction, and substantially form an elongated shape in the longitudinal direction,

wherein the a dimension in said the lateral direction of said individual wrapping container is in a range of 105 [--] to 130% of the a dimension in the lateral direction of said interlabial pad.

Claim 14 (Currently amended): A wrapping body according to claim 10, An individual wrapping container for individually wrapping an interlabial pad to be held between labia, comprising;

a main body including said interlabial pad and

wherein the individual wrapping container has a cover which overlaps a part of said main body, the cover having an end edge portion forming an unwrapping position to unwrap the individual wrapping container,

wherein said cover and said main body are lightly bonded to each other at both end portions in a perpendicular direction to an unwrapping direction of the individual wrapping container, said cover is shaped to have a cut off portion at a place where said individual wrapping container is held when the individual wrapping container is opened, and wherein a center part of said end edge protrudes by curving or beveling said end edge of said cover.

Claim 15 (Withdrawn): An individual wrapping container for individually wrapping an interlabial pad to be held between labia, comprising:

a main body containing said interlabial pad and

a cover which overlaps a part of said main body, the cover having an end edge portion forming an unwrapping part for unwrapping said individual wrapping container, and

wherein said cover and said main body are lightly bonded each other at both ends in a perpendicular direction to an unwrapping direction of the individual wrapping container, and

wherein an angle is made by a light-bonded line at both ends where the light-bonding is made and a non-bonded edge line where the light-bonding is not made, the angle which is made on a place other than the cover being an acute angle.

Claim 16 (Withdrawn): An individual wrapping container according to claim 14, comprising: an angle formed between a lightly-bonded line at both end portions and a non-bonded edge line of said cover,

wherein the angle formed on a place other than the cover is an acute angle.

Claim 17 (Withdrawn): A wrapping body according to claim 11, wherein the dimension in said lateral direction of said individual wrapping container is set in a range of 105 -- 130% of the dimension in the lateral direction of said interlabial pad.

Claim 18 (Currently amended): A wrapping body according to claim 10, An individual wrapping container for wrapping individually an interlabial pad to be held between labia;  
comprising:

an end edge of a cover; and

wherein said individual wrapping container comprises:

a center part of the end edge which protrudes by curving and beveling to the bottom of the main body in a perpendicular direction to an unwrapping direction of the cover, and

a non-bonded edge line where a light-bonding is not made,

wherein an angle is formed by the end edge and the non-bonded edge line, the end edge of the cover and a side extending parallel to the direction of unwrapping the cover form an angle, and the angle which is made formed on a place other than the cover is an acute angle.
